

TURAGA KRISHNA VAMSI

Data Analyst | Business Intelligence & Automation Specialist

Hyderabad

PH: +91 6303534959 mail: vamsi.turaga09@gmail.com

LinkedIn: <https://www.linkedin.com/in/vamsi-turaga/>

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in Python and SQL, specializing in data cleaning, validation, automation, and customer retention analysis. Experienced in building daily retention reports, tracking repeat purchase behavior, and delivering actionable insights that support pricing strategy and data-driven business decisions.

TECHNICAL SKILLS

Languages: Python, SQL

Data Analysis: Pandas, Data Cleaning, EDA, ETL, Trend Analysis

Visualization: Power BI / Tableau, Excel (Pivot Tables, VLOOKUP)

Automation: Selenium, Regex, Excel Automation

Other: GitHub

PROFESSIONAL EXPERIENCE

Data & Automation Analyst (Summer Solutions)

Tadepalligudem, Andhra Pradesh

Apr 2024 – Apr 2025

- Automated data validation and cleaning processes using Python and Pandas to improve reporting reliability.
- Built SQL-based data extraction and transformation workflows for structured analysis.
- Developed price monitoring systems using Selenium and Pandas for competitive market tracking.
- Created automated mail notification systems for failed transactions and customer communication.
- Implemented regex-based data parsing to extract PO and invoice details for reconciliation and margin analysis.
- Generated structured Excel and CSV reports summarizing pricing trends and product updates.
- Integrated Google Custom Search API to collect and structure keyword ranking data.
- Designed monitoring scripts to detect new vendor products and catalog changes.

Associate – (Canterr)

Hyderabad

july 2025-present

- Tracked hiring KPIs such as time-to-fill and sourcing conversion rates.
- Maintained recruitment dashboards using Excel.
- Analyzed candidate funnel metrics to optimize sourcing channels.
- Generated structured reports for management review.

PROJECTS

Vendor Price Monitoring & Competitive Analysis

- Monitored product prices from two vendor websites and compared them with internal website pricing.
- Automated data extraction and comparison using Python (Selenium, Pandas).
- Identified vendor price changes and updated internal product prices to maintain a 10% profit margin.
- Generated structured Excel reports to support competitive pricing decisions.

Pricing Comparison & Market Intelligence System

- Used Google Custom Search API to search product SKUs and identify relevant market listings.
- Automated price extraction from search result websites using Selenium and XPath.
- Collected competitor website names and product prices for items viewed on our website.
- Provided structured pricing reports to the webmaster to support price updates and maintain competitive positioning.

Transaction Failure Detection & Mail Automation

- Processed daily transaction data received in Excel to identify failed and incomplete payments.
- Built an automated system using Python (Pandas, win32com) to analyze records and trigger email notifications.
- Eliminated manual follow-ups by generating and sending emails automatically based on transaction status.
- Structured transaction logs into organized reports for tracking and reconciliation.

Email Domain Validation & Website Health Analysis

- Performed exploratory data analysis (EDA) and data cleaning on a dataset of 45,000 email records provided by a staffing company.
- Extracted website domains from email addresses using Pandas and string processing techniques.
- Built an asynchronous validation system using asyncio and aiohttp to check website availability.
- Classified domains based on HTTP response status (200 OK, timeout, not responding) and identified unusable websites.
- Delivered a structured report highlighting invalid domains and timeout cases to support data quality improvement.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering
Dantuluri Narayana Raju College of Engineering & Technology
Bhimavaram, Andhra Pradesh

Aug 2020 – Jun 2024

CERTIFICATIONS

Python Programming – A-Tech Computers
MERN Full Stack Developer – BlackBucks
Artificial Intelligence & Machine Learning – IBM EDU
